Service Training

A-Series Basic Engineering

Basic training:

The main objective of this course is providing our customers with the confidence and knowledge they require to be competent whilst working on Sealpac equipment. Our course offers a broad understanding of all the machines functions and capabilities and allows our customers to then maximise efficiency on their machines.

Course content:

- Machine introduction
- Machine overview
- Understanding the operator screen
- Understanding the linear system
- Understanding the film system
- Understanding the sealing station
- Basic maintenance of the machine
- Understanding the electrical system
- Understanding the pneumatic system
- Basic fault finding and analysis
- Understanding spares manuals
- Understanding electrical & pneumatic drawings

Machines	Delegates	Duration	Time	Fee per person
